Eric/Steve

I put together a spreadsheet for the cost estimate. I am missing costs for the ICP Building and cleaning services for the building. Can you make sure that I interpreted what you send correctly. I need to get this to USCG by close of business today.

I changed the number of personnel involved as it will likely be a centralized process at Corpus Christi.

Thanks

Gary Moore

Monthly costs ICP Alpha branch
Copier \$600
Dumpster \$200
Utilities/internet \$3000
1 HCI Logistics person \$20000

Gary,

For the estimate...

2 EPA people x \$ 1,500 / day = \$ 3,000 / day

5 START x \$ 2,000 / day = \$ 10,000 / day

Building rental =

Internet Service =

Subtotal =

+ indirect cost (13.29% x subtotal) =

Total =

Eric Paisley will provide the costs for the building and internet...

If USCG is asking for 90 day coverage, the personnel cost would be: \$ 270,000 for EPA and \$ 900,000 for START, so \$ 1,100,000 for 90 days + the indirect cost...

With Regards, Steve

All:

We need to put some numbers together to support USCG once we no longer have these services on-site:

USCG Support

The USCG has requested support should EPA's Mission be completed prior to the USCG/TGLO Vessel Recovery Mission. The USCG has indicated that it would like to request EPA assistance through a Pollution Removal Funding Authorization (PRFA) to provide the following support:

- Incident Command Post: Includes building, utilities, and internet (1 Logs Contractor, 1 EPA Logistics)
- IAP support: Includes 1 EPA Start Contractor (on-site) to assist USCG Planning Section Chief in the IAP development
- Response Manager Support: Includes 3 EPA START Contractor (on-site) for Data Entry/Report, 1 EPA START Contractor for Data Manager, and 1 EPA Data Manager.
